Harbor Hospital Facts

After more than a century of healing, Harbor Hospital is a mainstay in the community. Serving patients from Baltimore City, and Anne Arundel, Baltimore and Howard counties at our convenient waterside location with **the services of a large, regional medical center in a smaller, more personal environment.** From general medicine and surgery, obstetrics, orthopaedics and geriatrics to cardiology, gastroenterology and urology, our team of caring physicians and associates serves the unique needs of every patient.

Harbor Hospital is home to the **National Institute on Aging's (NIA) clinical research branch.** The NIA supports the Baltimore Longitudinal Study of Aging (BLSA), America's longest-running scientific study of human aging, begun in 1958.

Harbor Hospital also houses **Parexel's Baltimore Clinical Pharmacology Research Unit.** The unit, with 85 beds, specializes in meeting the needs of clients who require demanding clinical studies involving novel and complex procedures or monitoring techniques. The research unit is associated with more than 500 physicians representing 30 medical and surgical specialties.

Harbor Hospital offers **one of the nation's leading internal medicine residency programs.** Our residents, who play a vital role in the care of our patients, are among the best in the country, as evidenced by their consistent 100 percent national board certification pass rate, and standardized test scores in the top seven percent nationwide.

Advanced technology available includes state-of-the-art **radiation therapy, multi-slice CT, PET scan and a cardiac catheterization laboratory.**

MedStar Health, the parent company of Harbor Hospital, as well as Franklin Square, Georgetown, Good Samaritan, Montgomery General, National Rehab, St. Mary's, Union Memorial and Washington Hospital Center, has 3,300 licensed beds and more than 166,000 annual inpatient admissions.

Harbor Hospital has earned the prestigious Excellence Award for Quality from the Delmarva Foundation in 2001, 2006, 2007, 2008, 2010.
